To: Vehicle Transporters Shipping Ford/Lincoln Vehicles

Subject: Reminder on the Proper Methods to Clear Snow from a Vehicle

As per instruction listed in the Rail & Haulaway manual, it is imperative that a brush/rake with bristles or a scraper is **NOT** used on a vehicle to clear accumulated snow. A snow rake/broom with a **foam head** is the recommended tool to clear accumulated snow.

An example of the recommended product is shown below. This needs to be done to avoid any potential damage to the vehicle.

Should you have any questions or concerns, please do not hesitate to contact me.
Kind Regards,

Benjamin A. Pohl
